

Spirit of the Sun Solar Systems

**** We customize our solar generators to meet our customers needs****

Firefly Series

This series is our smallest light utility unit, designed to be light enough to be towed behind, yet powerful enough to run 3,500 watts of power. This unit is perfect for applications such as, remote recreational uses, remote cabins, light construction jobs, parties, fund raisers, weddings and fairs. The Firefly series is the perfect blend of energy and portability.

Firefly Series

*High Efficiency Solar Modules
30 continuous running amps@120 volts
800 amp-hour battery capacity*

Standard Features on all SOS Solar Generators

- Pure Sine Wave Inverters
- High Efficiency Photovoltaic Solar Modules
- High Security Locking System
- Automatic systems controlled active battery ventilation
- Passive trailer ventilation
- Acid resistant battery containment
- DOT Approved for Transport

Model	Standard Firefly
Inverter	
Surge	6kW
Rated Output	3.5 Kw
Ac Voltage	120/230
Hertz	60Hz/50Hz
Rated Amps	30 Amps
Pure Sine Wave	Yes
Battery	
Bank in Amp Hours	800AH
Bank Voltage	24DC
Solar	
No. of Panels	2 PV Panel
Warranty	25 yr.
Charge Controllers	
Max Amps DC	30 amps
MPPT	yes
Cargo Trailer	
Dimensions	4'x6'
Axles	Single 2500lbs.
